

PERFORMANCE SPORTS SYSTEMS MODEL 1130 AND 1140

MANUAL HEIGHT ADJUSTER ADJUST-A-GOAL SERIES

APPLICATION

This unit is designed to adjust goal height from 8' to 10' and operate from floor level using a removable hand crank. This unit may be installed on any of Performance Sports Systems basketball backstop.

SPECIFICATION

Vertical tubing shall allow the slide tubing to move freely without binding. Horizontal structure are two 2" x 1" x 3/16" thick steel channels with two 1/4" x 5" flat steel plates at each end. A 3" x 2" x 1/8" thick steel rectangular tubing is used as a direct goal attachment to transfer loads from backboard to the surrounding framework. All components are welded to insure stability during normal play. Screw rod shall be hardened 5/8" diameter stub acme thread design. Height is adjusted with hand held removable crank. Height adjustment label located on the back of the unit shall be used to visually determine height settings from 8' to 10' in 3" increments.

Unit shall be furnished with standard flat black finish and should not be painted after shipment. Unit must be periodically lubricated to insure proper function and ease of height adjustment.

Model 1130 is designed for all single post masts.

Model 1140 is designed for all dual post masts.
